

# DRAMA

## Subject Vision

Our curriculum enriches knowledge and understanding of a variety of drama techniques and working practices whilst developing the emotional intelligence of the students, producing well-rounded individuals. Students gain a knowledge and understanding of Drama as an art form, developing skills in leadership, communication, time management, collaboration, creativity and self-discipline.

### Aims:

- create, rehearse, perform and evaluate drama using a range of skills, techniques, genres and styles, including the works of renowned drama and theatre practitioners and playwrights.
- learn to devise their own work, exploring their own creativity and imagination. Working closely with class members to discuss, plan, rehearse and produce high quality devised theatre that comments on society, sends a message or communicates meaning with an audience.
- understand and explore how theatre is created, produced and communicated, including the use of technical aspects such as stage, set, costume, props, sound and lighting.
