

Dear Parents/Carers,

For those of you currently tracking the Covid-19 case rates, you will be aware that it is not looking very positive. Whilst we have not heard any suggestion from the Department for Education that there will be any interruption to a normal school return in January, we thought it would be useful to remind our community of our home learning procedures in the event that case restrictions are put in place. Please save this letter somewhere important – stick it to your fridge!

Please know that schools do not have any additional information to parents and carers. We have not received any hints or tips regarding January. **I can assure you that we will find out at exactly the same time as you!** Please do not interpret this letter as any more than an attempt to be prepared for every eventuality – whatever that may be!

For all year groups, our remote learning offer consists of:

- At least two live lessons each day (usually English and Maths)
- At least one pre-recorded lesson each day (usually a foundation subject such as Science or History)
- Phonics sessions for Key Stage 1 and Basics Skills Sessions for Key Stage Two
- Links to fitness activities and additional activities where needed
- Physical home learning packs filled with resources to accompany the home learning. These can be printed at home or collected from school each week. Stationery, exercise books and reading books will also be available from school.

We recognise that every family has a different set of circumstances and therefore, the blended approach of some live and some pre-recorded lessons means that families have some flexibility with timetabling.

All of our home learning is hosted on our handy year group SharePoint sites. On there, you will find your child's weekly timetable, the resources you need and any links to pre-recorded lessons. For safety and security reasons, links to the online live lessons are sent securely via ParentMail. We also will continue to utilise our online learning subscription platforms such as 'Times Table Rock Stars' and 'Spelling Shed' for children in Years 1 and above (these are really important platforms that really do help children with their learning!). They allow children to complete work and provide instant feedback and data to teachers so that they can keep an eye on how children are doing. You should already have these usernames and passwords (please check your child's reading record for these).

On the following page, you will find links to your child's year group web pages (these have content on from previous closures and have not been updated as yet) along with email addresses and passwords.

I sincerely hope that in this situation, we are being overprepared and over-cautious. Fingers crossed that we will see all of our children safely back in school on the 5th January (4th January is an INSET day for the Primary Campus). If not, I hope this information provides you with at least some comfort knowing that there are plans in place to ensure continuity of education in a virtual way.

Many thanks.

Mr. Field
Head of Primary
